BACK ISSUES of
 Marc Bloom's Yearbooks:

Available Editions:
 '70, '71, '72, '73, '74, '76, '77

\$1.50 each. All 7 for \$10.
 Order below. Still, great
 reading for all fans.

1978 NY STATE HS TRACK & FIELD ANNUAL

(formerly: NEW YORK STATE SCHOLASTIC TRACK "YEARBOOK")

FORWARD... "It's for real... At long last!!!"... by now most people were convinced that this ANNUAL would never get published, especially those of you who ordered copies months ago (some as early as last September). But, here it is... for better or for worse... and we hope that you are not disappointed in the finished product after so long a wait.

... "The Winds of Change" have brought many new innovations to the high school track and field scene since last year, not the least of which was the "Passing-of-the-Baton" from MARC BLOOM to LARRY HYNE... as the chronicler of the history, statistics, and records of Track and Field at the scholastic level in the "Empire" State.

... This change actually began quietly on an afternoon in February of 1977, during one of those endless indoor meets at the State Armory on 168th Street in Upper Manhattan. Marc called me aside and inquired if my long-standing enthusiasm for our sport was deep-rooted enough to undertake this "Labor-of-Love" (as he called it), to compile the data and publish a Yearbook. It took me a few weeks to consider if he had tapped the right individual to perpetuate this monumental project which Marc had accomplished so successfully for the past thirteen years. But then, if I didn't accept the mantle... who would? So I did. And with that decision on my part, the long-time "Guru" of New York State High School Track relinquished his title and duties, and moved on to other track-oriented pursuits, especially his highly successful nation-wide Cross-Country periodical... "THE HARRIER" (see ad opposite).

... Needless to say, all of us who have had any connection with high school track owe Marc Bloom a tremendous debt of gratitude for his long and conscientious efforts in compiling and cataloging the volumes of data from which the "cream-of-the-crop" appears herein. He started from scratch, with a rather simple First Edition in 1966, and now owns a reputation as one of the top scholastic track experts in the country.

... However, his time had come to more on... as Marc himself foretold in the opening paragraph of the 1977 Yearbook... "The last season was a strange one for me. I found that my spirit had ebbed. I anticipated the coming of some track meets with a sense of duty, not desire." That about sums up his reasons for bowing out. For when this type of devotion becomes a task... forget it... and I, for one, respect Marc for calling it enough when he did. We all truly wish Marc "Good Luck" and "Godspeed" in his new endeavors.

... No doubt there may come a time when your new Editor will also "pack it in" (and I came damn close a couple of times last Fall in trying to make order of the chaos that was my assembled rough data... and the principal reason that this ANNUAL was delayed for over six months in getting published)... but, until then, it's full speed ahead with a new skipper at the helm, and with your help, this publication will remain among the best of its kind in the entire country.

CHANGES... It is frequently said: "A New Broom Sweeps Clean"... and so it is with this publication. Besides the change in the Editor and Publisher, as noted above, a number of new and significant innovations... many FOR THE FIRST TIME ANYWHERE... have been incorporated into this 1978 Edition. First and foremost, is a new Title and Masthead. After many attempts to shorten the original title, it ended up with one a bit longer. It is now called "NY STATE HS TRACK & FIELD ANNUAL". Long as it sounds, we felt that this new title best describes what our publication is all about. Next... the size was reduced down to "pocket book" dimensions for easy storage in, among other places... your pocket.

... Then, the entire page-for-page format was rearranged in the following manner... ALL DATA pertaining to EACH EVENT is contained ON ONE SINGLE PAGE. No longer will it be necessary to flip back and forth to locate the National Record, then the State Record, and the Class Records, then the Current List, and the All-Time List, etc. If it pertains to that event... it's on that page. So, for each standard high school event, the new format contains, in descending order:

1. THE NATIONAL RECORD... as recognized by TRACK AND FIELD NEWS... with, FOR THE FIRST TIME ANYWHERE... the record; the name of the recordholder; his school; its location; placing in the event (numerical indication is shown if not a winning performance); name of the meet; the site of the meet, and the actual date of the mark. A few of the events do not have this full data, but our researchers are sure we'll have them by next ANNUAL.
 2. THE NEW YORK STATE RECORD... as recognized by this ANNUAL (in the tradition of the former "YEARBOOK"), see STATISTICAL EXPLANATION next page w/, FOR THE FIRST TIME ANYWHERE... the full array of data as to school, placing, meet, site, date, etc., as indicated with the National Records.
 3. THE CLASS RECORDS... NATIONAL on the left (courtesy Jack Shepard, HS Editor, T&F)... NY STATE on right.
 4. THE 1977 LIST... 50-Deep Outdoors... 25-Deep Indoors (give or take a few)... with, FOR THE FIRST TIME... full verification as to placing (including best, semi, Section, etc., if applicable); meet; and actual date of each performance, if available. This authenticating data on each mark leaves no doubt as to its credibility, especially when it comes to seeding in the "big" meets (Penn Relays, Easterns, IPI, etc.), as well as for verifying records. This year we were able to obtain the full data on about 85% of the marks... next year "100%".
 5. THE ALL-TIME LISTS (ATLs)... again 50-Deep and 25-Deep, respectively... FOR THE FIRST TIME SINCE 1972, incorporating unconverted metric marks which are listed in their proper order of merit on the combined lists.
 6. THE "GRADUATE" RECORD... This is the best ever performance in that event by a N.Y. STATE HS GRADUATE, including several all-NY teams in the respective relays. If you know of a better GRADUATE mark, let us know.
- ... In addition, most pages contain other pertinent facts, or trivia "tid-bits" relating to that event, and the STANDARD CONVERSION FACTOR for events for which a combined yards/meters list is maintained.

... In the NON-STANDARD high school events (100m, 1,500m, Steeplechase, Javelin, etc.) the National, State, Class, and Graduate records are listed... but... just a single ATL appears, with as many quality performances as research could uncover (some as few as 4). However, within these ATLs the 1977 marks are substantiated with the placing, meet and date. The ANNUAL would like to expand these "non-standard" lists, so if our readership has knowledge of quality marks made in times past that should be included, please inform the ANNUAL.

... Our INDOOR SECTION is basically the same format, but the Lists are only 25-Deep and two events to each page.

HISTORICAL EXPLANATION...First and foremost...this ANNUAL will follow all of the criteria, policies and statistical recording guidelines set forth by TRACK and FIELD NEWS ("The Bible of the Sport")...see "New Guideline For Prep Marks"...I June 1970 issue of T&F, and each edition of HIGH SCHOOL TRACK, published annually by T&F.

...This means that all New York State secondary school (public, private, parochial, etc.) athletes from freshmen through seniors (until 31 August of their graduating year) competing in a recognized event in any scheduled meet can, under otherwise legal conditions, establish what this ANNUAL will recognize as the all-time NEW YORK STATE HIGH SCHOOL RECORD...or Class Record. It should be noted here that team affiliation is not a prerequisite for the inclusion of an athlete's performance(s). He need only be a legitimate secondary school student. As noted above, Spring graduates remain eligible for these lists until 8/31 of each year, the terminal date of each yearly list.

ABBREVIATIONS...the ANNUAL will utilize those which are in general use in both T&F and the previous editions of the Yearbook...with one major exception...the "n" designation indicating "non-winning" performances will no longer be shown, since the ANNUAL now indicates the placing of each mark on the current lists (as outlined on page 3) Otherwise it's: * - Junior; ** - Sophomore; *** - Fresh... h = heat; qf = quarter-final; sf = semi-final; Sec = Section. An h, qf, or sf combined with a Roman Numeral indicates the number of the heat, semi, etc., while a Roman Numeral by itself indicates a Section Number, as in longer races run in sections on a time basis. A ± before a mark shown in hundredths of a second indicates that the performance was clocked by Fully Automatic Time. On the One Mile outdoor list indicates that the athlete has a superior 1,500m performance... An S next to a time indicates that this was an acceptable clocking ENROUTE to a longer distance (see 3k/5km and 6k/10km lists). Other abbreviations unique to a particular event(s) are explained on that respective page.

METRIC EVENTS...RECORDING/CONVERTING...Let's face it...metric events are here to stay. They are now the only accepted outdoor events (except the mile and marathon) on the International/AAU/Collegiate level. In addition, they are being conducted more and more frequently on the High School level, such as at the Penn Relays (where many "seasonal bests" in the 400mR, 1,600mR, 1MR, etc. are set by a number of schools). As a result, each year an increasing number of metric performances will show-up on both yearly and ATLs. Therefore, the policy of this ANNUAL in recording metric marks is as follows: the ACTUAL TIME of all TRACK PERFORMANCES (individual and relays) WILL BE SHOWN. These actual metric times will be ranked on any COMBINED LIST (see below) in their PROPER ORDER OF MERIT...and will NOT be converted. The STANDARD CONVERSION FACTOR appears on each of these combined pages, so that you may determine the equivalent time.

COMBINED LISTS...for those Track events that are fairly close in comparison between yards and meters, a combined list will be shown with the STANDARD CONVERSION FACTOR detailed on the bottom of each respective page/event. These combined events are - Individual: 200m/220y - 400m/440y - 800m/880y - 110mH/120yH(42") & 400mH/440yH; and Relays: 400m/440y - 800m/880y - 1,600m/One Mile - 3,200m/Two Mile - Sprint Medley and Distance Medley... Separate Lists (hence, no attempt at direct conversion) will be shown for: 100m, 1,500m, 3,000m Steeple, etc.

FIELD EVENTS...All field event performances will be shown in FEET and INCHES...until further notice. Marks in the DISCUS, HAMMER, and JAVELIN will be recorded in WHOLE INCHES. Marks reported to the annual in fractions in these three events will be rounded down to the nearest whole inch in keeping w/ IAAF/NCAA recording rules.

ACKNOWLEDGEMENTS...No publication of this nature would be as complete as it is without the continuing support of a significant number of key contributors "in-the-field". To those coaches, sports writers and sundry other correspondents who keep a steady flow of meet results, clippings, stats, etc., coming my way, we owe a sincere debt of gratitude. At the very top of any such listing is my close associate in Syracuse, Neil Kerr, who publishes the weekly N.Y. State Sports Writers Association "NEWSLETTER". Neil coordinates much of the Upstate data that form the ever-growing "seasonal best" lists in the NEWSLETTER from which our current year's Top-50 are drawn. Among our other principal correspondents are: Brian Caulfield, Tom Doherty, Joe Fox, Don Gallagher, Hugh Goodman, Dave Hanson, Mike Holdridge, Oscar Jensen, Al Krauser, Marty Lewis, Don MacArthur, Bill Murphy, Alan Schlein, Jack Shepard, Rick Stellrecht, and John Tkach...If we've overlooked anyone...please forgive!!!

...In addition, the ANNUAL has selected, as of this-our first year, ten track knowledgeable individuals that constitute a group of consultants upon whose expertise in certain special areas of our sport your Editor has relied in various policy-making situations.

THE 1977 - 78 "PANEL OF ADVISORS"

MARC BLOOM, former Editor & Publisher of this Yearbook
BRIAN CAULFIELD, Editor & Publisher, CHSAA NEWSLETTER
NEIL KERR, Editor & Publisher, NYSSWA NEWSLETTER
WALTER KROLMAN, Assistant Coach, St. John's University
MARTY LEWIS, Track Commissioner, PSAL of New York City

PAUL LINGER, Track Coach, Mepham HS, Bellmore
BILL MILLER, HS Track Correspondent, New York Times
WALT MURPHY, Editor & Publisher of "EASTERN TRACK"
JIM SPIER, Track Statistician & T&F Correspondent
JIM TOZAR, former Coach, Chaminade & Wantagh HS

...Numbered among this group are two friends who must be singled out for their enthusiastic personal support and assistance. For without it, you would not be reading this ANNUAL today. First...Jim Spier...a track statistician extraordinaire, with a memory-bank to match his professional computer expertise. He filled in many of the gaps on needed performances long past, and did the last "fine-tooth-comb" proofing of the stats herein. When Jim put his "imprimatur" on the final draft, we knew it was ready to go. And lastly, my close friend and track associate, Walt Krolman. It would be remiss on my part not to acknowledge that he has co-collaborated on this work right from the start. And when I needed a swift kick-in-the-pants to get moving on the ANNUAL, he was always there to provide the foot. At the drop of a phone call, he was ready, willing and able to research the most minute of details, and it was he who resurrected the Indoor ATLs to their current 25-Deep status. To sum it up, without Walt's tremendous contributions there would be no '78 ANNUAL.

...With this I've said my piece, except for one bit of unfinished business. Since this is my first published work, I feel the need to dedicate this effort to someone who was very very special in my life...

DEDICATION...To Patrick Aloysius Byrne...5 July 1954 - 13 April 1977...my eldest son...For as the Lord giveth, so shall He taketh away". Though not a trackman, this fine student-athlete...Chaminade, Class of '72...was, as early as his fresh year, a many time Catholic and Private School Wrestling Champion with the Flyers. He was all a father could ever be proud of. But tragedy struck us suddenly and most unexpectedly last April, a personal trauma from which I'll never fully recover. Therefore...to Pat, who with his keen analytical mind would have relished this work...our '78 ANNUAL is dedicated in the true spirit of "Peace and Love"...Thank you, all.

LARRY BYRNE, Editor and Publisher
161 Swan Lane, Levittown, NY 11756

1977 - "ATHLETE OF THE YEAR"

- 4/30 - Penn Relays - 47.0s anchor leg on the Hewlett 1,600mR, 1st in 3:21.8m (16)
5/6 - New York Relays - 47.7, wins Open 440, New Long Island Record
5/14 - Hartford Invitational - 21.3, wins 220 w/ a PR.
also at Hartford - 47.3, wins 440 in a meet record, New Long Island Record
5/16 - Capped a successful Dual Meet season w/ a most unique double win 9.7/1:57.9
5/21 - Eddy Memorial Games - 47.6, wins 440 in a Meet Record
5/28 - Nassau South Shore - 21.2w, wins 220, & then runs a 45.9 anchor on 3:21.6 1MR.
5/30 - Eastern States - 47.2, wins 440 and = the Meet Record...New L. I. Record
6/4 - Section 8 Meet - 46.5, wins 440 & sets NEW STATE RECORD in the 440
6/11 - Golden West Meet - 46.8, wins 440, & 21.8 (3rd) in 220. Wins Meet MVP.
6/18 - Jr National AAU - 46.09, wins 400m in National Record (FAT) makes USA Junior Team vs. USSR (46.44 heat)
7/3 - IEA vs. USSR - 46.45, 2nd to Keith Brown, Villanova Frosh (now teammates)

*These six athletes on the ATL each have a 1,500m performance that is equivalent to a faster one mile run, CENTROWITZ 3:43.4 (=4:01.3) - WEAVER 3:50.0 (=4:08.4) - OSTOLZAGA 3:49.6 (=4:08.0) - FRANCIS 3:48.6 (=4:06.9) - HANSON 3:49.8 (=4:06.2) - MCLOUGHLIN 3:51.1 (=4:09.6)...see page 28 for 1,500m All-Time List.

If your thinking in terms of an all-time Four-Mile Relay - POWER vs. SEWANHAKA, it's Power by 15.6 seconds, 16:34.4 (CENTROWITZ, COLON, WEAVER and BRIAN JOHNSON 4:16.2 '74) over a 16:50.0 for Sewanhaka's four best performances (J. CAMLEN, T. CAMLEN, BRODERICK and CLIFF MARDEL 4:15.6 '71).

That fabulous two mile race at the '77 Penn Relays was, without any doubt, the greatest quality-performance mass-finish event in the history of NY State HS Track. A review of the '77 Outdoor List (above) will indicate just how dominant this one race actually was, as NYers Tuttle, Grimes, Camlen, Gregorek (w/ a State Junior record), and O'Connor swept the first 5 places. A New Jersey runner, Henry Lenz of Memorial, broke in for 6th (9:05.0)...With Francis, Itak and McEvoy in the next 3 spots. Each of the first 9 scored his own HS Personal Record (PR), which incidentally, none of them bettered for the rest of the '77 outdoor season...as a result, their ranking on the ATL is based on this one race. In addition to the "Penn Eight", another 6 runners broke onto the ATL in '77, making the 2M the most assaulted ATL in the ANNUAL.

By the way!...getting back to the Penn Relay 2M for a moment...would you believe that a number of the newspaper summaries that were sent to the ANNUAL from around the State contained only the winning time in this event. Can you imagine people reading these "sums" and saying.. "Wow, Tuttle ran some race"...not realizing the significance of the next 8 place times!!! See the Introduction Section for further comments on this non-recording of non-winning performances.

 RUDY REAVIS New Rochelle 75
 PAUL DANIELS Thomas Edison, Queens 74

- OMOLABI's series at the Penn Relays: 50-8¹, 48-9¹, 50-11¹, 50-9¹, 49-10¹, and 51-1. This was the best series in the history of the PR high school triple jump, with four of his jumps bettering the old meet record of 49-3¹ set by Ken McBryde of Mount Vernon in 1971.

Yes!!!...that Calvin Hill (47-5¹ on the ATL)...is the same Calvin Hill that was an All-Pro running back for the Dallas Cowboys in the "early Seventies"!!!

GRADUATE: 54-3¹ KEN MCBRYDE (Mount Vernon '71), Manhattan College, (2nd) NCAA Champs, Austin, Texas 8Jun74

15 tied at 43.1

Note - NO!!!...BOYS HS did not invent this event...even though they currently own over 26% of the ATL. However, it should be noted with some degree of pride that the 42.0 by BOYS in 1948 (# 7 on the ATL) set a new National HS Record in the Penn Relays on 23 April 1948. This clocking broke a 20-year old record of 42.4 by Glendale, California HS on 10 March 1928. What makes this '48 performance all the more amazing was that the team of Jim Conway - Everett Branch - Jim Gathers - Roger Montgomery ran it on the "chewed-up" cinders of Franklin Field (anyone who knew the Penn Relays in the pre-Tartan days can relate to that situation), and, without the benefit of the International ("Fly-Zone") Relay Zone. The final significance of this great team effort was that this mark held up as the National Record for another 12 years!!! It wasn't until the Spring of 1960, that Andrews, Texas HS broke the 42 second barrier, with a 41.5 clocking, which began a 10-year string of assaults on the record for this event by various Lone Star State high schools, culminating in the current 40.2 by Lincoln.

STANDARD CONVERSION FACTORS: (hand-timed) - 400m Relay to 440y Relay - add .3 seconds
(Fully Automatic Timing) - 400m relay to 440y relay - add .16 seconds
(e. g., JAMAICA's 43.18m @ Penn converts to 43.34y...while ARLINGTON's 44.34m = 44.5y, etc.)

NATIONAL: 1:25.0 BETHEL, Hampton, Virginia, Golden South Invitational Meet, Winter Park, Florida 28May77
(David Washington 21.1 - Eric Brown 21.2 - Arthur Armstead 21.4 - Daryl Patterson 21.3)

NY STATE: 1:25.4 WHITE PLAINS, CHSAA Coaches Relays, St. John's University, Jamaica, NY (See #) 7Jun66
(Dave Jackson 21.8 - Larry James 21.5 - Carl Reed 21.3 - Otis Hill 20.8)

10:21.8	SUSAN WAGNER, Staten Island	76

CONVERSION FACTORS:

Believe it or not...there are TWO...as indicated below. It all begins in 1976, when the Penn Relays introduced the 4,000 meter DMR, w/ legs of 800m, 400m, 1,300m & 1,500m. Following the example of the FR, all other metric DMRs in '76 were run in that order. Late in '76, the NCAA stepped in and made the 4,000 meter DMR an official collegiate event...BUT...in their infinite wisdom, they changed the two longer legs to 1,200m and 1,600m. As a result, the 1977 DMR at Penn was switched to conform to the new official sequence. However, the other major metric DMR held during the outdoor season, at the Suffolk Track Officials Relays (STOR), is conducted with the 'old', now unofficial, order which somewhat complicates the records keeping. The following conversion factors were established by ENFR, and, as such will be utilized exclusively in this ANNUAL.

4,000 meters - w/ legs of 800m - 400m - 1,300m and 1,600m...add 4.0 to get the equivalent of a 2.5 mile DMR clocking. These performances are indicated by an "m".

4,000 meters - w/ the 1,300m and 1,500m combination...add 5.0...they are shown as "m".

Incidentally, the DMR can be run in one of THREE ways: 880-440-1,320-Mile...or...1,320-440-880-Mile...or...as in several California meets, where the number of teams in the event is limited to the number of lanes on that track...440-880-1,320-Mile, w/ the lead-off leg run in lanes all the way. Although these examples are in linear distances, the metric equivalent on each leg also applies.

GRADUATE: 9:47.4 GEORGETOWN UNIVERSITY, Washington, D. C., (2nd) Penn Relays, Franklin Field, Phila. 28Apr66
880 - Ricardo Urbina (McClancy '63) 1:50.6 1,320 - Bob Zieminski (Molloy '64) 2:58.6
440 - Jim Dork (Mount St. Mic. '64) 48.5 Mile - Paul Perry (LaSalle H.A. '65) 4:00.6

Since this is an all ex-CHSAA team, it is their "Alumni" record as well (courtesy CHSAA NEWSLETTER)

ADD:			
18:24.5	WHITE PLAINS	(2)NR	4/9
19:10.9	SOUTH SIDE, Rockville Centre	(1)NCR-4	4/16

Note - Only 39 teams ran 19:30.0 (a reasonable cut-off point for this event)...OR...a number of quality performances were not reported to this ANNAL, which of course, is probably the answer to the missing marks. We dug through the results of every relay meet (in which a 4MR was held) to obtain those performances listed above...BUT...as is the case in a few of the major meets that run this event, they only list the top 5-6 to finish, while teams 6-12 are clocking their best.

The official metric equivalent event is the 6,000m (4 x 1,500m) relay...to date no HS marks in NY State have been reported at this distance, when they are expected times to average 45 sec. to one minute faster.

9:37.4	PAUL KAPANSKI Bishop Loughlin, Brooklyn	74
9:40.4	JOHN CABELL Kingston	73
9:41.0	JIM LEARY New Rochelle	75

SHIELDS' 8:52.6 (the only sub-9:00.0 performance in US HS history) earned him a trip to Europe in the summer of '76 to compete vs the USSR, and West German junior team. On 7/3/76 he won the USSR meet in 9:03.2, which ranks as the # 2 HS performance of all-time. In the West German meet a week later, he was leading (at an 8:45.0 pace) when he tripped over a hurdle and fell...he got up and finished 3rd in 9:25.4.

TUTTLE's 9:14.5 in winning the '77 Loucks Meet (after a 4:10.6 win in the mile) is the fastest time in US HS history in an all-scholastic meet. This time earned him the # 6 spot among all US HS performers...but, the other five all set their top times in "open" AAU competition.

NOTE ON CONVERSION: In view of the frequency of performances in this...the "full" Intermediate Hurdle event...by high school competitors, the ANNUAL felt it necessary to modify its usual Yard/Metric listing policy in this case with its all-inclusive "Current Year/All-Time List". Also, since a majority of future performances in this event will occur in "open" competition, where the official distance is in meters...we have automatically converted all yard marks to their metric equivalent (subtracting 0.3). These former 440y IH performances on this list are designated by * directly after the converted time.

GRADUATE:	+49.60	HAROLD SCHWAB (Centereach '72), Pennsylvania, (4th-st) Olympic Trials, Eugene, Ore. 20Jun76

14.9y	PETE MATTINA Syosset	68	15.4m	MIKE MURPHY Xaverian, Brooklyn	76

NOTE: Due to the relatively small difference between the yard and metric distances in this event (i. e., 120 meters = 120 yards, 1 foot) there is NO ACTUAL CONVERSION FACTOR. However, IAFN recognizes a performance at the 110m distance to be superior to an identical clocking at 120y. The code "m" or "y" is applied to each performance on this list indicating at which distance that mark was made.

144-10	BILL HERMAN White Plains (6)IMG 5/14/77	132-6	JULIUS FELDER Mount Vernon

Note - Well...we're making some progress in this event...our State Record is now exactly 70 feet behind that of our smaller neighbor across the Hudson...New Jersey (compare National and NY State records above). If it were not for the wisdom and foresight of Section I, which now includes this event in almost all of its meets, including the Glenn Loucks Meet; the Arlington Relays, and their Sectionals, there would be no State List at all...Let's hope that by the end of '78, we will be only 50 feet back of NJ.

HAMMER (16)

NATIONAL: 202-9 MANNY SILVERIO, North Bergen, N. J., at Providence, Rhode Island 28Aug76
NY STATE: 152-10 BORIS DIERASSI, James Madison, Brooklyn 70
 (That's it!!!!...the only recorded performance w/ the 16-lb ball by a N Y State athlete)

GRADUATE: 231-3 AL SCHOTERMAN (Bay Shore '67), Kent State, NCAA Champs, Eugene, Oregon 2Jun72
 ...Al was a Discus Thrower in HS...see 172-7 on the Discus ATL...he converted to the Hammer Throw (and 35-lb Weight, indoors) in college...

DECATHLON

In 1961, within a 5-day span, HILL BOYLE, Chaminade set 2 National Indoor HS Records. On 2/18 in the NYU Meet his 1:13.1 set a National Flat-Floor mark (& #2 on the US HS ATL, behind a banked-track 1:11.5). Then on 2/22 in the CHSAA Sectionals, BOYLE became the first HS student in the US to break 50.0 in the 440y indoors w/ his "All-Floors" 49.9. Since '61, only KEVIN PRICE (1977 ICW 600y champ) has also made both the 440 & 600 ATLs.

Of the ten performers who are on both the 1,000y and One Mile ATLE, one-half are the "VILLANOVA FIVE" (see the 1,000 page)...the others are DABNEY (Adelphi); TUTTLE (Auburn); CENTROWITZ (Oregon); GAUGHN (Manhattan); and FREEMORE (Cornell)...and then there is BRIAN McELROY (of the "Villanova Five"), who in his senior year of 1969, displayed great versatility by setting a National Flat-Floor Record in the 600y (1:12.6), in addition to his victories in the 1,000 and Mile, hence, he is the only performer on those 3 ATLE.

Among the various Indoor Records referred to in this ANNUAL, the phrase "Flat-Floor" appears from time to time (see above in connection with McElroy's performances). For many years most of the indoor meets were either conducted on a banked-board track, as in the Old Garden (50th St. and 8th Ave.) where the use of spikes and blocks were permitted, or on the "flat" drill floors of the various armories, where the wearing of spikes is prohibited, and blocks are rarely, if ever, utilized. It was felt by record-keepers of old, that performances on these Armory floors i. e., "Flat" Floors, merited special consideration in view of the "built-in" handicap, hence an entirely separate set of records, from the National to the State to various leagues, and even individual school marks were maintained in this category.

However, in the past decade, with the advent of the artificial surfaces, almost all of which are "flat", and which a number are of a material that permits the use of spikes (e. g. Jadwin Gym, Manley Field House, Halsey Field House, Leverone Field House, to name a few), the original "Flat-Floor" category of records has sort of passed into a "limbo" status. But, occasionally in recent years, a performance will occur in the 168th Street Armory that still will be considered as a National Flat-Floor record (e. g., MAURICE WEAVER's 9:04.2 two-mile...see next page). When this happens, the ANNUAL will recognize the performance as such.

- This 9:04.2 by Weaver is the National "Flat-Floor" record for the 2 mile run (see opposite page)

Two members of the Class of '73 who appear on this Two Mile ATL, CENTROWITZ and GAUGHN, are also "3-List" performers (like Brian McElroy, opposite), as their FR's as seniors earned them a ranking on the 1,000 yard and One Mile ATLE, respectively.

NOTE - In past years the "Yearbook" ran 60y HH Lists that frequently contained both 4-flight and 5-flight performances, without designation as to "which-was-which". As a result, this new 5-flight ALL-TIME LIST may be less than complete at the current 7.5 cut-off mark. In this regard, Coaches and Correspondents are requested to provide the ANNUAL with all 7.5 (or better) performances in the 5-flight event through the 1977 Indoor Season. It is our intent to expand the 5-flight ATL to 25-Deep in '79.

GRADUATE:	7.2	PETE MATTINA (Syosset '68), Tennessee, vs. Nebraska & Iowa State, Lincoln, Nebraska 20Feb71

NOTE - The 4-flight 60y HH event is almost an OBSOLETE race, with only several of the early season "Armory" Meets (i. e., Loughlin, St. Francis, Iona, etc.) still conducting this event. As the 5-event lists expand in future issues of the ANNUAL to 25-Deep, reference to the 4-flight event will be limited to a small (10-12) ATL. In this regard, the ANNUAL encourages all Meet Directors to change their programs to accommodate the 5-flight event, so that the competitors will run the same event that is held in the major championship meets at the end of the Indoor Season (i. e., Eastern States, Intersectional)

			OVERSIZE TRACK PERFORMANCE		
			1:31.0 NEW ROCHELLE	73	
			1:31.1 MOUNT VERNON	70	

NOTE - The 1:29.9 by DeWitt Clinton at the Eastern States in '74, set a NEW NATIONAL HS RECORD, which lasted less than a year when Ferguson ran its 1:29.1...however, Clinton's time currently = 3rd on the US-ATL.

GRADUATE: The 880y Relay is rarely, if ever conducted on the collegiate or AAU level, as a result there is no recorded performance (to our knowledge) by an all-NY State HS graduate team in this event !!

ONE MILE RELAY

NATIONAL: 3:19.5 LANE TECH, Chicago, Ill., City Champs, Chicago, Illinois 29Mar74
(Kevin Newell 50.6 - Dennis Kern 49.6 - Tim Klein 50.2 - Louis Carr 49.1)
